These are the complainant's own allegations, posted as filed.

March 15, 2026

To the Mayor, City Council, and Citizens of Taylor:

In October of 2020 we moved into our home on [redacted] Road we choose to build here due to the peacefulness, low population, and the fact we wouldn't have our home right on top of other homes like in subdivisions or in more populated areas. We are a military family, and we have chosen this area to be our 'forever home". What should have been an exciting start to our future was quickly tarnished with covid, builder problems where we had to file a lawsuit, and within a year for me a diagnosis of an aggressive form of cancer.
The first few years of being in our new home were spent fighting, fighting for life, fighting insurance companies, fighting in court a builder that cut corners. Then when we finally thought we were starting to see light at the end of the tunnel only we found out we were in for another fight this time with a "developer" that wanted to build a subdivision all around us and not take into consideration the families, farmers and generations of rural life style everyone in this area wanted to keep. During my treatment the one thing I could do was look outdoors at the trees, birds, animals and sunsets, this "developer" was ok with destroying all of that. So, at this time, we began going to city council meetings and then zoning meetings. During these meetings I found it odd/disappointing that none of the council members attempted to speak with us even if we were only a few of the citizens attending. Eventually I did speak with Mayor Snell and at times we bumped heads, but we understood we both wanted what was right. To this day I still respect Mr. Snell and his care for Taylor, (he has been very supportive over the past few weeks). During this time other citizens reached out to me and asked me to help them with things that had happened to them with the same "developer" that I was going to the meeting about. I spoke with Mayor Snell, and he pointed me in the direction to Houston County Commissioner Chairman Brandon Shoupe, and we were able to help those citizens. At that time, I realized I cannot just go to meetings when I want to "bitch" about something and expect to be listened to and taken seriously, so I've tried to attend meetings as often as possible because my city and my community are important to me. And I feel that as a citizen if I can't take a few hours out of my month to go to city council meetings and read the information then I have no right to complain about what is going on. Not only that anytime the city council leaves information out for citizens to read I take it, I take it home and read it because I have to read it slower, and by myself with my glasses because of the treatment I had I have some vision, and cognition problems so it takes a little time for me and sitting in a loud room I can't read.

So now that I have given you a little background on myself and to the matter at hand. We live next door to [redacted] and Sofia Rogers. Last year [redacted] introduced [redacted] to Robert Lamb while they were outside making signs in [redacted] barn, [redacted] had walked over to say or ask something and at a later time [redacted] asked [redacted] if we would put a sign out for Robert for mayor we declined because we didn't want any problems with it being a small town. At this we were still dealing with things with the "developer", and they had been logging all around us now. We had asked [redacted] to not stir anything up about the fact that the loggers had crossed the property line because we had already reached out to them and they were

These are the complainant's own allegations, posted as filed.

willing to work with everyone but [redacted] plan was to file a class action lawsuit against Mr. [redacted] and put a lien against his land so he couldn't sell it to said "developer" saying that would force him to sell to "us" (because at one time several of the neighbors had talked about trying to buy some of the land together if Mr. [redacted] would only sell it as a larger plot). We, in plain and simple terms, told [redacted] there was no way in hell we would go along with any of this. [redacted] continued to try to rally neighbors on doing this where [redacted] and [redacted] had a sort of falling out over it. It is very sad that as neighbor's things like this happen especially since we are very fond of their children, [redacted] I've loved on their kids, and we have tried to be good neighbors.
We had heard [redacted] and Sofia speak poorly of Chief Brazier and we had our concerns when we seen [redacted] making signs at his house about how much he would be involved with things if Robert Lamb was elected Mayor. But we were totally stunned when the first day of Robert Lamb being mayor, he fired Chief Brazier and within a few weeks Sofia was hired as City Clerk. Then rehiring of the police officer that was let go for ethical and safety problems.

The week of the meeting February 3, 2026, Mayor Lamb asked at the end of the meeting if there were any questions, I raised my hand and was called on and explained I was concerned about I called city hall was about where we were supposed to take dogs. At previous meetings we were told they were not going to renew the contract with the animal shelter and were going to take care of strays in house but the person that had been doing that quit so now there is no solution. I guess that bringing up that was piss poor planning made that mayor mad, the Councilman Milner tried to bring up some questions, the mayor went into complete melt down mode and would not answer questions, started deflecting with gibberish nonsense and blame games. After the meeting I donated to one of the city hall employees that told me she volunteers at a few of the animal shelters, and she was explaining to me about foster animals and how they transport them to different places. I told her I couldn't foster because of my mom and my own health plus having 2 dogs. I then went over and there was one packet left that Rickey Stokes had been using so I picked it up, thinking I just hadn't gotten one because we came in later than usual. We stood around talking for a bit I was getting cold, so I put everything including the booklet in my hoodie, kept talking, I had stood waiting to speak to Councilman Milner, but he was in a conversation that looked like it wasn't going to end so after about 20 minutes we decided to go ahead home. The next day while I was at physical therapy [redacted] was flying. I called city hall and they told me I needed to talk to the police chief, and he wasn't there. I asked for a call back. Chief Hill called me back within a few minutes and stated he had just happened to be reviewing the tape after the meeting and witnessed me stealing an employee handbook, I questioned if he watched the meeting and he stated no he had just happened to be viewing the films from after the meeting. I asked him if the mayor was having him do this because he was pissed off because I spoke out and he said the mayor had nothing to do with this. I told him no I took the handbook that Rickey Stokes was using, videoing, photographing, and held up and announced to city council that it was public record. I was then told that I had until 5pm to return it or I would be picked up and put in

These are the complainant's own allegations, posted as filed.

cuffs. I told him fine, but he needed to leave [redacted] out of it because [redacted] didn't do anything and he needed to leave him out of it, he stated something along the lines of well good he doesn't need to be involved.
After that conversation I called Rickey Stokes to confirm that I had taken the same booklet he was filming, and to request assistance in handling the matter. He agreed to meet me when I return the booklet to the police chief at city hall. I then messaged a friend whose husband works in law enforcement in case I needed help, I knew if I needed an honest officer Taylor didn't have one. Then I had to send a message to [redacted] hey I love you and when you get done flying, I might be in jail. I also called John Milner to let a member of city council know what was going on, I was unable to reach him at the time, so I left him a voicemail.
Ricky met me at city hall and chief Hill was standing next to Ann Baxter's desk waiting on me when I went in. I said OK what now and it was at this time he said OK, well now you are going to be given a summons to go to court. I was like "are you for real" and Ann Baxter and the other old lady started talking to me like I'm a drug lord and signed a summons for theft of government property in the 3rd , (she signed the summons after I returned the item this is important considering Robert tried to use this argument as threat at the next city council meeting to [redacted] outside in front of Brandon Shoupe before the meeting started). At that time Chief Hill conveniently gets a call he must run out the door for.
I leave City Hall and call my attorney [redacted] schedule a phone consultation for the next morning. Return a call to Councilman John Milner and my friend whose husband is in law enforcement.
That evening, I have positive calls with Councilman Milner and my friend, the next day I speak with my attorney, and he ask me to give him a few hours, after a few hours he lets me know, I will not need to worry about appearing in court and everything is taken care of.
But in my mind, is it? Really? What kind of place is it, where if you say something, the mayor gets his feelings hurt about, he is going to use his magistrate clerk, and police chief to harass his citizens? During this time I speak with Council Milner who confirms that the mayor did know/probably had a hand in what happened to me, the question of why the police was sent to my house the mayor stated he didn't know where I lived, which is odd considering his clerk is Sofia Rogers, he's there often he's meet my husband there and knows were the Rogers neighbor, plus the first meeting after he was made mayor for some reason Sofia made an effort to point at us out to him which made us very uncomfortable. So there is no way he didn't know who we were or where we lived, and he also has pretty easy access to the city of Taylor records that you just don't go straight using your police chief and court magistrate if there was possibly a misunderstanding, as he claimed to [redacted] I wasn't really charged it was just a summons. Well what mayor Lamb fails to realize is that it caused a lot of cascading effects for someone who already has enough stress in their life. I realized once I got home my summons was on the same day as multiple appointments at UAB, I tried to call the same day I received the summons but Ann Baxter number went straight to voice mail, later Rickey Stokes told me I couldn't get in touch with anyone because he went back in and Ann and her old lady co-worker had left their office unlocked and open unsecure so they could go over to the other side of the building and talk about me. Taxpayer dollars at work right there the entire city building spending time talking about

These are the complainant's own allegations, posted as filed.

a taxpayer. So, I tell Councilman Milner I want to speak at the next city council meeting, but I know they are going to do something to not let me. He assures me just to call and request to be put on the agenda it won't be a problem the next meeting in on February 17, in previous times we have been put on the agenda 24 hours' notice has been the rule of thumb. There is no policy or information on how to get put onto the agenda on the city of Taylor's website as of Friday February 13 at 11:50 I call to be put on the agenda to be told that I cannot be put on the agenda because it must be 7 days in advance, I ask where the policy is and I get told I don't know. I ask for it to be found and have it emailed to me. At 4:15 no email, I call back this time Sofia Rogers answers and I tell [redacted] to deal with her, she changes the reason I cannot get put on the agenda 3 times, 1st it was 7 days, then it was because I didn't fill out the paper, then it was because the mayors new policy is that there has to be a reason for addressing the council and he has to have time to approve or deny it. She the says fine Ill put you on the agenda.

Then the night of the 17th arrives. We come in and immediately Sofia comes toward me with a piece of paper that looks like a high schooler typed it for the city of Taylor request to be on the agenda. I ask Kenny to come over and explain again why this is ridiculous. During this same time [redacted] and Brandon Shoupe are outside talking about the adventures of [redacted] and the Mayor has the nerve to go out there and threaten [redacted]k that if I attempt to address the council he will show the video of me "stealing" but tried to sugar coat it first if she would just ask we will print whatever she wants, when [redacted] said you still gave her a summons and charged her will a crime he had the nerve to say no we didn't. But never fear [redacted] Rogers who never attends meets found out Brandon Shoupe was going to be at this meeting, so he rolled in long enough to give the prayer in sweatpants and leave, and I'm yelled at because I ask my neighbor if he was only here to pray for the photo op??

All this is to be said I'm hurt, angry, embarrassed, disappointed. If I mess up and do something wrong I am definitely big enough to admit it, but I am also big enough to stand up for myself when I am getting forced into silence by an insecure unqualified petty little man trying surround himself with people that are willing to do things that aren't right or even illegal either because they need a job, their arrogance is leading them to ignorance, or they are just as dirty as the mayor. In any case there is no reason the city of Taylor needs to allow such things to continue as the status quo.

After my good fortune in being introduced to how Mayor Lamb treats his citizens our former police Chief Brazier reached out to me to see if I was ok. He is a good man even though the only communication I ever had with him was a few times joking around at city council meetings he still called to check on me. It was interesting to talk to him he doesn't want anything bad for Taylor either even after how Mayor Lamb treated him. He just wants his case to be heard just like me. You have got to wonder why mayor Lamb blocks anyone that might speak the truth. Former Mayor Snell also reached out to check on me. Their kindness was very appreciated during a very stressful time.

I just wanted to say my piece to the council; I thought maybe I deserved a public apology the way I was publicly embarrassed. [redacted] and I might have to go to court over a mistake and petty little man and small-town back door politics. I had to cancel multiple appointment at UAB that I will now

These are the complainant's own allegations, posted as filed.

have to wait months to get back in to be seen for important appointment because your court magistrate is so unprofessional and unethical on so many fronts and then she feels its ok to spread every citizens business around all of city hall and be caught by a reporter. [redacted] had to take phone calls and text messages from neighbors asking if I had been arrested. I haven't gotten my attorney's bill yet, but I will be forwarding it to the city of Taylor. But I just want to speak at the city council meeting and feel that I am owed to a public apology because there was too much expectation from the mayor Lamb and city of Taylor. Someone asked at the meeting the other night if I had gotten an attorney yet, and I said only to help me with the summons, and they said please get an attorney and sue. I said all I had really wanted was acknowledgement they had messed up but now. But not being able to swallow his pride and do the right thing mayor Lamb has given me time, time is something a person like me finds difficult, I'm [redacted] a cancer survivor time for me has never equated to something good happening so I find myself working hard to find answers to all the questions the citizens of Taylor and City Council should be asking. I've had time read about public servants, some of their oaths, and job descriptions, things that should have and not have, and I've thought a lot about ethics, accountability, standards of practice, then I seen a blog of a person who didn't complete their move to Taylor because of a police officer and the magistrate clerk, I sat in a work shop and heard Sofia Roger is way behind on financial stuff for the city, I drive by the play ground and see it not done, and then I hear an elderly person ask me to ask something at a city council meeting because she is scared to and I think there are things bigger at stake than me. Taylor needs a mayor they aren't scared of and that is honest, they deserve a police chief that is respected and is looking out for the people of Taylor not looking out for the mayor, Taylor needs a city clerk and magistrate clerk that works for the people and the city instead of making it about themselves or the mayor. (I'm being kind, not petty by not putting examples in these sections)

Taylor is supposed to be every single one of our homes. I shouldn't have to worry about [redacted] in Taylor, after this happened I do. I shouldn't have to worry about being pulled over in Taylor, after this happened I do. I shouldn't have to worry about what the mayor might try to do to my family because of me, even though I have every right to oppose his views, but I do. Nobody should have to worry about those things and yet I'm not the only one heard say this.

For the citizens of Taylor, I'm asking you to stay aware, be engaged, and speak out.

To the city council I'm asking you to hold true to your oath, stand up against injustice, and speak out. Start making there be accountability and consequences to actions /Inactions and demand respect from each other and the mayor. And if you are unwilling or unable to perform your duties step aside. I would also ask that you start questioning if some of the employees in City Hall should be employees for the City of Taylor? If they cannot show basic respect for their job, by respecting the citizens they serve, there job description causes them to have more conflicts of interest than not, they show blatant disrespect for the City Council by following the Mayor's lead and not showing up for

These are the complainant's own allegations, posted as filed.

workshops on the employee handbook, following the mayors lead on helping the mayor in the malicious prosecution of citizens, where is the discipline where is the accountability, where is the professionalism? Please make it clear moving forward no employee going forward targeting any citizen will be tolerated because there are several citizens worried about it at this time.

To the mayor step aside in 3 months you have done enough damage and embarrassed yourself enough. You lack integrity, responsibility, respect for others, and temperament to be a public servant. If you would like examples besides what happened to me I would tell people to look at tayloral.com, look at the campaign contributions, and then question your hiring practices, the fact no financials have been given to city council monthly, and the toxic work environment that has been created inside city hall and use of malicious prosecution and abuse of power. Your ethical and moral character was already in question prior to you taking office when you purchased property that was in abatement when you were code enforcement officer. You have not taken into consideration what your choices from your own ego, pettiness, disrespect, unkindness, toxicity, and lies will cost not only the citizens of Taylor but the employee you have. You have elderly people that will not come to city council meetings because they are scared and you have lost employees because of the toxicity; others have spoken of the toxic environment. Your citizens see it every meeting with the way you treat them, allowing them to be kicked out of open meetings, using intimidation of a police officer that is supposed to be there to serve and protect them to intimidate and harass them like a school bully in a flack vest, using him to tell senior citizens to be quite but allowing your crazy cousin to charge the council and scare everyone then lock everyone outside with him while your officer stays inside instead of making sure his citizens are okay.
Making policy without running it by city council for example changing how citizens will be able to get on the agenda.
Not telling the council or the citizens the truth about the firing of Police Chief James Braizer and the follow-up letter requesting a meeting from his lawyer.
Instead of alerting the proper authorities and allowing your City Council to know about missing funds you have been around town, slandering people from the prior administration which yet again just puts the City of Taylor in a position of legal trouble.

In conclusion whether you are the Mayor or a City Council Member if you cannot lead with integrity, honesty, and as good steward for the City of Taylor please step down if you cannot stand up for Taylor and its citizens because you're too old, too scared, or don't give a damn step aside. I appreciate your time and attention to my concerns.

May 22, 2026

Honorable Russ Goodman,
District Attorney, Houston County,
462 N. Oates St.
Dothan, AL 36303

Sir,

We are concerned citizens of Taylor, AL. As our district attorney we would appreciate your help in protecting our city. We are respectful members of our community. [redacted] She worked through school from CNA to BSN as a nurse, [redacted] She worked as a supervising nurse at a local hospital during covid, until she was diagnosed with head and neck cancer. She spent the last 5 years fighting the disease and lasting lifelong side effects of treatment. [redacted] is a veteran and senior officer in the US Army with over 27 years of time spent in service to our country on active duty and as a reservist. As a civilian he works to continue his service training Army aviators. We have lived in the wiregrass for over 16 years. We moved to Taylor about 6 years ago and built what we hoped to be our forever home.

On November 1, 2025, Robert Lamb was sworn in as the mayor of Taylor, AL. Within minutes of taking office, he began betraying the faith the voters of Taylor put in him and the oath of office he took to serve our community. He has spent months demonstrating incompetence, ignorance, spitefulness, and stubbornness to his multitude of inappropriate actions. The attached enclosure (encl 1) will list the actions and information to support our concerns for our community with respect to the good order and conduct of our civic leaders with respect to the expected morales of our community and Alabama code and ethics.

Please assist our city, our council members, and our citizens in holding our city officials accountable for their actions. Under Alabama code title 11, title 2, chapter 44 (encl 2) we submitted a request for a recall election. It has been ignored. Please use your position to appropriately help enforce Alabama code for a recall election, and/or support a removal for incompetence of Mayor Robert Lamb.

Respectfully,

[redacted]

These are the complainant's own allegations, posted as filed.

Enclosure 1: List of events

- November 1, 2025: Mayor Lamb **fired the Police Chief**, James Brazier **without cause** and/or outside Alabama code within 45 minutes of taking office as a political or personal statement.

- Mayor Lamb then appointed his friend Jimmy Hill as Police Chief, ignoring that Hill had previously quit his job as Samson Police Chief **under suspension and investigation** for inappropriate actions at that position.

- He then hired his friend, Officer Miller, who had **previously been fired from the city of Taylor** for inappropriate conduct. It is speculated that Officer Miller can not pass Alabama Law Enforcement checks to be hired as a police officer due to actions at other law enforcement position for possible ethical and/or legal misconduct. It is believed Mayor Lamb **ignored and did not complete the required checks** and hired the individual regardless.

- City Council Members requested information surrounding the dismissal of Chief Brazier in a council meeting with the public. Mayor Lamb told them it was a settled matter. **He did not inform the City Council** of Chief Brazier request for documents, and **he knowingly did not and failed to provide the letter specifically addressed to the City Council** from Chief Brazier requesting a hearing.

- At a meeting in the beginning of February, Ms. [redacted] questioned him about the handling of stray animals in the city. At the end of the meeting, she took a copy of a city manual, which is public information. The next day, Mayor Lamb had the interim Police Chief Hill and the city court magistrate Anne Baxter **attempt to arrest and maliciously prosecute her**. Even after she returned the copy of the document, they gave her a court summons to charge her with a crime.

- Mayor Lamb has allowed the court magistrate clerk, Anne Baxter, to spend city funds to send an employee for training. They then asked the city council for approval of the expenditure after the fact. **They ignored city policy and procedures to use unauthorized city funds.**

- Mayor Lamb had at the previous meeting agreed with the city council not to pay the high rates of the new shelter in Houston County and instead handle stray animals within the city themselves. He changed his position without informing the council or the city. After being questioned about his actions toward the residents and his decision on the issue, he had the city's kennel area for the animals destroyed. **He destroyed city government property without the approval of the city council.**

- After previous events several citizens requested to speak at the city council meetings in February and March. Suddenly there was a policy and forms to fill out requests to speak. The requirement includes submission at least 7 days prior to the council meeting and the mayor reserves the right to deny any request. The council at the next meeting asked if this was an actual policy (i.e. approved city policy by the council). The mayor, who had created the policy on

These are the complainant's own allegations, posted as filed.

his own asked the city clerk, Sophia Rogers, to verify it was a policy during the council meeting. She agreed with Mayor Lamb and verified it was an actual city policy to the council. **Reality showed later they both made false statements and they had actually created the fake policy on their own,** and the council or any previous council had never approved their fictitious policy.

- In November and December Mayor Lamb pushed the city council to approve a contract for a new city IT person. He pushed for the contract citing the immediate need for new computers. The contract included an upfront monthly fee, which the council questioned the validity of. Mayor Lamb pushed for the individual to be hired as he appeared to know of the individual personally and vouched for his ability to do the job. He assured the council the automatic monthly fee was appropriate. Approximately 3 months later, the city council questioned as to the status of the new computers and the IT person's work. The mayor informed the council he has looked for grants to purchase new computers but could not cite any other relative work completed. They questioned the mayor about the IT person's lack of work and the fact at the mayor's insistence they are paying a large monthly fee. The mayor would not give them any answers as to why. **He seemed unphased by the cost to the city as his associate continues to get paid for unaccountable work each month.**

- Ms. [redacted] one of the individuals they were attempting to slow or prevent from speaking at a city council meeting, when she attempted to follow their new fake policy requested considerations for speech difficulties **under the Americans with Disabilities Act. He ignored the request.**

- Background, Sophia Rogers took the job after Rober Lamb won the election as she and her husband John Rogers were political supporters who pushed Mr. Lamb to run for the office. Sophia Rogers has little or no known experience to qualify her to be a city clerk. Around the March to April time frame at a city council meeting, Mayor Lamb introduced Mr. Boulard to be the new city attorney. Mayor Lamb stated he hired him after the current city attorney had quit. The two stated that the mayor hired him and it was his right and position to do so, they just need the city council to approve him getting paid for his new position. **When a council member and the previous mayor spoke with the city attorney he did not know of any resignation or termination of his position.** Coincidently and probable conflict of interest, Mr. Bullard is the **private attorney for Sophia Rogers** and her husband [redacted] Rogers.

- In March, as city council meeting continued to get more heated between Mayor Lamb with City Council Members or Citizens, he began to verbally assault citizens who he did not like. [redacted] was berated by him for speaking to someone leaving, unrelated to anything else occurring with the council meeting and not interrupting it. Later in the meeting though **Mayor Lamb allowed a close friend of his to stand up from the crowd and verbally assault the city council members.** Mayor Lamb declared the meeting was over and **ordered his Officer Miller to remove the citizens from the meeting. This was a violation of the Alabama Open Meetings**

These are the complainant's own allegations, posted as filed.

the property out from under the individual he was investigating, while the city was putting financial pressure on the individual.

- As the city clerk was unqualified for the position, she was unable to understand how to account for the money in city accounts. **Mayor Lamb then began making statements of slander** to council members that the previous mayor had stolen large amounts of money from the city. The amounts have varied depending on who or when he told the story. The previous mayor spoke at a city council meeting letting everyone know he was aware of the slander, demanded an investigation, an audit or [redacted] in the city's finances, and promised legal action for the injustice.

- All of this has led to the citizens signing a recall petition in accordance with Alabama State Code. On April 21, 2026, the City Clerk, Sophia Rogers was given a petition demanding a recall election. It was written, signed, and completed within the requirements of state code. **Clerk Sophia Rogers ignored it and has not followed state code as required by her position** to protect her and her husband's friend Mayor Robert Lamb.

- **The week following submission of the recall petition, Mayor Lamb called voters who signed the petition to harass and badger them for signing the petition. This is an act of voter intimidation.**

These are the complainant's own allegations, posted as filed.

To Whom it May Concern:

July 15, 2026

During a regularly scheduled Taylor City Council Meeting on June 23, 2026, Mayor Robert Lamb announced that he had appointed Tim Miller as Interim Police Chief. This comes after several months of citizens and Council Members requesting information and communication after months of grid lock. Mayor Lamb stated that he made the decision for Tim Miller to be Police Chief after talking to a few people, meaning he did not consult with the City Council members. There was discussion on how Tim Miller could be placed in this position since he may not be able to pass the background checks, and previous administration had fired him. Mayor Lamb stated he confirmed with all agencies that Tim Miller was qualified and certified, and the incident that happened during Chief Brazier's tenure had resulted in Tim Miller being fired, had been taken care of and that was the previous administration fault. And it essentially didn't really count.

Respectfully

[redacted]

These are the complainant's own allegations, posted as filed.

[redacted]

To Whom it May Concern: July 17, 2026

This letter is being written today not by a law enforcement officer or public official requesting information or asking for assistance with mundane tasks. This letter comes from a private citizen, a private citizen that is [redacted] a Head and Neck Cancer Survivor, and Registered Nurse these things have given me a love for my country and a knowledge that if it's not documented it didn't happen.

Robert Lamb was elected Mayor of Taylor, Al, he took oath of office on November 3, 2025, within 45 minutes of taking office fired the police chief without any discussion with City Council. At the next City Council meeting Police Chief Brazier arrived and stated he would like to have a hearing and to have time to reach his attorney. Mayor Robert Lamb, Magistrate Clerk Ann Baxter, and Sophia Rogers have repeatedly withheld information from the city council and citizens.

Robert Lamb announced interim Police Chief Jimmy Hill would replace Brazier. Citizens questioned this because Hill had previously resigned from Samson because he was under investigation. Interim Police Chief and Mayor Lamb then rehired Police Officer Tim Miller. Tim Miller had worked for the City of Taylor previously, that ended with him resigning because he knew there were several reasons for his dismissal coming to light.

Mayor Lamb's campaign was partially funded and publicized by my neighbors [redacted] and Sophia Rogers after Mayor Lamb took office Sophia Rogers took the job as City Clerk.

The first problem that we had with the Mayor, City Clerk, Magistrate Clerk, and Chief Hill came after a regularly scheduled city council meeting. At the end of the of the meeting there was a point where someone asked if there were any further questions I asked what we were going to do about stray animals since the Mayor decided to no longer continue the contract with the animal shelter that the city helped pay to build, and that the plan that city employees were supposedly going to take care of stray animals is no longer the plan. I stated I had called City Hall this week because there were two large stray dogs on the road and I was told they were no longer doing that. This made the mayor mad and he ended the meeting. At most every meeting I have attended there was a table that had papers for citizens to take, I have difficulty reading in loud areas and take-home things to read so after the meeting while waiting to speak to Councilman Milner I took the paperwork from the table. I stood and spoke to several citizens, city employees, and neighbors, I was cold and

These are the complainant's own allegations, posted as filed.

had an extra-large hoodie on and put all my belongings including the papers in my hoodie. After approx. twenty minutes I decided Councilman Milner was too busy to wait for and I needed to go home. I gave a donation to a city employee to help feed the stray animals and left.

The next day while I was at an appointment [redacted] Police Chief Hill came to our home asking for both me and my fiancée [redacted] I called city hall and requested to speak with Chief Hill and was told he would have to get back to me. When he called me back, he stated he just happened to be reviewing video (video that is only supposed to be accessed by the City Clerk) of me taking papers from the city council meeting, I stated I do this every meeting. Chief Hill stated that if I did not return the papers by 5pm that day he would come and cuff me. My Fiancée at the time was active-duty military instructor pilot flying and I could not contact him, so I contacted a local media person that covers city council meetings, my neighbor left a message with my lawyer and left my fiancée a message to know that he might have to pick me up. The local media person Rickey Stokes met me at Taylor City Hall at approx. 3p, when we went in Chief Hill standing next to the Magistrate Clerk Ann Baxter office, she immediately began belittling and acting out of turn, I asked what was going to happen now. That is when she signed the summons stating that I was going to court for theft in the 3rd degree for theft of government property. So, I was charged for taking paper that was public information, that for the last 2 years had always been on that table.

The February 17th meeting mayor refused to let me speak to the city council, he had the city clerk invent a policy about citizens being put on the agenda. He even went out of the building and threatened my fiancée in front of Houston County Commissioner Chairman Brandon Shoupe about me trying to speak.

At this time, we decided that we were going to have to try to find a way to help our city because we were not the only citizens being abused and there were several great employees that the city had lost due to Mayor Lamb abusing power and verbally abusing them. We consulted with a few lifelong Taylor residents, former Taylor political players and decided the best way to go was a petition for recalling the mayoral election.
While we started this behind-the-scenes Mayor Lamb was trying to push to find a permanent replacement for Police Chief without resolving the James Brazier issue.

The petition the recall required 30% of the voters that voted in the mayoral election sign the petition. Being that less than 350 voted and were trying to do this without certain people finding out who was doing it, it was literally a few people with copies of a petition and excel sheets going door to door. But within a month and a half at the April 21 City Council meeting we, as the law states, presented the petition to the City Clerk and Council for recall she had 30 days to take it to the Probate judge she did not.

These are the complainant's own allegations, posted as filed.

Since the petition was turned in, we have repeatedly been followed home after City Council meetings by Taylor City police.

On June 23, 2026, without consulting city council Mayor Lamb announced that he was naming Tim Miller Interim Police Chief. When citizens stated that there were concerns about this Mayor Lamb stated that all those things were cleared up, like he was talking about a little kid getting to hit restart on a video game.

On July 7, 2026, meeting the mayor and his clerk yet again instead of trying to do what is right for Taylor did something stupid so stupid in fact his own lawyer had to stand up and correct him. It must have hurt his pride because I giggled a bit and he yelled at me asking me what I thought was funny and then made a comment about the petition not working to get him out of office.

I live on a street that leads to nothing, unless you are going to someone's house there is no reason to be on my street, but on July 8th as I was coming home from doing errands Police Chief Tim Miller rolled up behind me and passed.

On July 10th Police Chief Tim Miller came to my home (I did not call for aid), he did not come to my front door to announce his presence, he entered my garage and harassed my fiancée friend that was painting our garage. He stated that there had been a report that we were moving people into our garage. Well, that would be great if that was any of his business, when did it become ok for police to follow your home, enter your home when you're there without making you aware of their presence?
I contacted the County Sheriff's Office and was told that it is a civil matter and to get an attorney and get a cease-and-desist against them.
So I've filed ethics complaints, others have filed ethics complaints, sent letters to the Attorney General, a Council member went to the DA, State Representatives Paul Lee has been called, the Alabama Bar Association is been notified of some of the wrong doings, but it is like everyone is just sitting on their hands waiting to see what happens. On July 16th out of a moment of feeling completely helpless I went to the RSA building in Montgomery to see if the Ethics Commission or APOSTC would help me, and the woman at APOSTC couldn't bother to open the door even though I told her I'm scared for the safety of myself and family. And the Ethics Commission told me they were only worried about things pertaining to financial ethical crimes.

Any help would be greatly appreciated.

Respectfully

[redacted]

These are the complainant's own allegations, posted as filed.

From: [redacted] & [redacted]
[redacted]

Date: July 18, 2026

To: Mayor of Taylor, Alabama
All Members of the City Council of Taylor, Alabama
Interim Police Chief Timothy Miller

Subject: Immediate Cease and Desist, and Formal Complaint Concerning the Conduct of Interim Police Chief Timothy Miller

Dear Taylor City Council Member and Mayor of Taylor, AL,

We demand the IMMEDIATE CEASE AND DESIST of Interim Police Chief Timothy Miller in his attempt to intimidate and harass us and our family.

I am submitting this formal complaint regarding the actions of Interim Police Chief Timothy Miller on July 10, 2026, at our residence.

On July 10, 2026, Interim Police Chief Timothy Miller came to my property while a friend and professional was painting my attached garage. My residence is situated more than 100 yards from the main roadway, and the garage is positioned so that its interior cannot be viewed from the public road. The garage does not face the roadway and is physically attached to my home. As such, it is considered part of the home itself, and **is without a doubt within the home's constitutionally protected curtilage**, under both state and federal laws and judicial rulings.

Without first attempting to contact myself or [redacted] **without obtaining consent, and without possessing a search warrant or any valid probable cause of any criminal activity**; Interim Police Chief Timothy Miller drove onto my property, exited his vehicle, and walked directly into my attached garage and home **without invitation or consent**. Once inside, he began questioning whether a building permit had been obtained and whether, we as homeowners were attempting to move someone into the garage implying some criminal act. He claimed there had been a report of un-permitted construction being completed. His baseless and insinuating line of question was an attempt to justify **his warrantless unauthorized search of our home**.

At no time did Interim Police Chief Timothy Miller attempt to contact either me or [redacted] before entering part of our home. We were both in the home in other parts of the house at the time. There was no emergency, no report of criminal activity, and no exigent circumstances that would have justified a warrantless entry into our constitutionally

These are the complainant's own allegations, posted as filed.

protected home. **He made no attempt to make us aware of his unauthorized presence in our home**. If there had been a basis for a claim of un-permitted work, this would be the responsibility of a building inspector or possibly code enforcement officer as this is not a criminal activity. And they would still have to follow civil and criminal law, which would not give them permission to illegally enter our home.

It is not a coincidence; within the last few weeks we had questioned the mayor in public at a city council meeting about the possible poor judgement of hiring Timothy Miller and appointing him Interim Police Chief with his questionable history of previous employment as a Taylor Police Officer. The mayor responded by yelling angerly at myself and [redacted] about how he was a qualified law enforcement officer and blaming others for Officer Miller being fired from Taylor previously. It is also not a likely coincidence; the day prior to illegally entering our home, he had followed [redacted] home and slow rolled past her driving up the street as she stopped to check the mail. Interim Police Chief Timothy Miller claimed he was at our home based on an anonymous tip of un-permitted construction being done. This was a baseless unsubstantiated reason Interim Police Chief Timothy Miller used as an excuse to **invade our privacy and violate our rights in an attempt to intimidate and harass us**.

The Fourth Amendment to the United States Constitution protects citizens against unreasonable searches and seizures. These protections extend to the home and areas intimately associated with it. Because my garage is physically attached to my residence, it is part of our home and enjoys the same constitutional protection afforded to the home itself. The plain view doctrine does not authorize officers to enter private property or protected areas of a residence in order to create a vantage point from which evidence can be observed. This was an obvious attempt at a unreasonable search hoping to find unknown evidence as a reason to continue and further his attempt to intimidate and harass us through an attempt at discovering or creating questionable legal findings.

Based upon these facts, I respectfully request that the City investigate the conduct of Interim Police Chief Timothy Miller to determine:

- Why he entered our home without first obtaining a warrant or our consent.
- What legal authority he believed authorized his warrantless entry into my home.
- Whether he was acting under the direction of any other municipal official.
- Whether any reports, dispatch logs, or other records were created leading to this incident.
- To hold him accountable for his unprofessional actions.

We demand the **IMMEDIATE CEASE AND DESIST** of Interim Police Chief Timothy Miller in his attempt to intimidate and harass us and our family. Interim Police Chief Timothy Miller is not welcomed or authorized on our property. Any further presence on our property or at

These are the complainant's own allegations, posted as filed.

our home is **TRESPASSING** and we will contact the proper authorities. Any future attempt to intimidate or harass us will be met with all available civil and/or criminal legal pursuits.

I respectfully request written confirmation that this complaint has been received and that the City of Taylor will take appropriate action against Interim Police Chief Timothy Miller as a public servant who has broken his trust in the community, which he is supposed to be protecting and serving.

Sincerely,

[redacted]

CC: Houston County District Attorney, Russ Goodman
Houston County Sheriff, Donald Valenza
Alabama Attorney General, Steve Marshall

These are the complainant's own allegations, posted as filed.

NOTICE OF CLAIM, DEMAND FOR PRESERVATION OF EVIDENCE, AND NOTICE OF INTENT TO FILE CIVIL ACTION

Date: September 14, 2026

VIA CERTIFIED MAIL, HAND DELIVERY, OR ELECTRONIC DELIVERY

TO:

City Clerk
City of Taylor, Alabama
1469 S. St. Hwy. 605
Taylor, AL 36301

City of Taylor, Alabama
Attn: City Council
1469 S. St. Hwy. 605
Taylor, AL 36301

Robert Lamb, Mayor
City of Taylor, Alabama
1469 S. St. Hwy. 605
Taylor, AL 36301

Timothy Miller, Interim Chief of Police
City of Taylor Police Department
1469 S. St. Hwy. 605
Taylor, AL 36301

RE: NOTICE OF CLAIM AND INTENT TO FILE CIVIL ACTION — ALLEGED FOURTH AMENDMENT VIOLATION, WARRANTLESS ENTRY, AND RELATED MUNICIPAL LIABILITY

Dear Mayor Lamb, Chief Miller, City Clerk, and Members of the City Council:

This correspondence constitutes formal notice of claims arising from the conduct of Interim Chief of Police Timothy Miller at the residence located at [redacted] Alabama, on or about July 10, 2026, and from the subsequent conduct and response of the City of Taylor and its responsible officials.

This letter is intended to provide notice of the claims and circumstances presently known to the claimant, to request preservation of all potentially relevant evidence, and to notify the City and the individual defendants of the claimant's intent to pursue available legal remedies if this matter is not satisfactorily investigated and resolved.

These are the complainant's own allegations, posted as filed.

The claims presently contemplated include, without limitation, claims under 42 U.S.C. § 1983 arising from an alleged violation of rights secured by the Fourth Amendment to the United States Constitution, claims concerning municipal policy, custom, training, supervision, and/or deliberate indifference where supported by the evidence, and any applicable claims under Alabama law.

This notice is based upon information presently available. The claimant expressly reserves the right to supplement, amend, or expand the factual allegations and legal claims as supported by any additional evidence.

Nothing in this correspondence constitutes a waiver of any claim, remedy, constitutional right, statutory right, or cause of action.

I. PROPERTY AND LOCATION OF THE INCIDENT

The property involved is located at [redacted]

The residence is situated approximately 400 feet from the right-of-way of [redacted] Road. [redacted] Road generally runs north and south, and the residence faces east.

The portion of the property involved in this incident is the garage, which is attached to and forms part of the residential structure.

The garage opening faces north. Because of the location and orientation of the structure, the interior of the garage is not openly visible from [redacted] Road, from the public right-of-way, or from any other residences in the area.

This fact is significant because the activity occurring inside the garage was not readily observable by a person merely traveling along [redacted] Road or standing within the public right-of-way.

II. FACTUAL CIRCUMSTANCES

On July 10, 2026, [redacted] and [redacted] were having the interior of their garage painted at their residence at [redacted]

The individual performing or assisting with the work is a general contractor who performs reconstruction and general home-repair work as part of his occupation.

The work being performed consisted of painting an existing structure or room attached to the residence. To the claimant's knowledge, no new construction or structural modification was occurring at the time.

These are the complainant's own allegations, posted as filed.

The claimant is not presently aware of any criminal activity occurring at the property, any emergency condition, or any circumstance requiring immediate governmental entry into the residence.

If the City contends that the work being performed constituted a violation of any municipal ordinance, building code, zoning provision, or other law, the claimant requests that the City identify the specific ordinance, statute, regulation, or other legal authority upon which the investigation was based.

III. ENTRY BY INTERIM CHIEF TIMOTHY MILLER

During the incident, Interim Chief of Police Timothy Miller drove onto the property at 140 [redacted] Road.

Based upon the facts presently known, Miller did not appear to limit his conduct to a conventional "knock and talk" at the front door.

Rather, Miller proceeded into the residential area and entered approximately eight feet into the garage/residential area, where he questioned the individual who was painting regarding what work he was doing, why he was doing it, and what were the home owners intention with the garage.

The claimant alleges that this area was part of the residence and was within the area immediately associated with and protected by the home.

The claimant further alleges that Miller entered this area without first obtaining consent, without presenting a warrant, and without circumstances apparent to the occupants establishing an emergency or other recognized exception to the warrant requirement.

The Fourth Amendment protects individuals against unreasonable searches and seizures and affords heightened protection to the home and areas immediately associated with the home.

Based upon the facts presently known, there does not appear to have been probable cause, consent, exigent circumstances, or another apparent exception to the warrant requirement that would have authorized the alleged warrantless entry.

IV. ABSENCE OF AN APPARENT EXIGENT CIRCUMSTANCE

At the time of the incident:

- [redacted] and [redacted] were present at the residence.
- There was no known emergency occurring at the residence.
- There was no apparent immediate threat to life or physical safety.

These are the complainant's own allegations, posted as filed.

- There was no apparent destruction of evidence.
- There was no apparent ongoing criminal activity.
- There was no apparent threat to Miller or another person.
- No warrant was presented.
- No consent to enter was given.

Miller ultimately left the property without making contact with either [redacted] or [redacted]

In particular, Miller did not appear to knock on the front door or otherwise attempt to speak with the homeowners before leaving the property.

If Miller believed that a legitimate code-enforcement or criminal investigation was necessary, there were investigative methods available that did not necessarily require immediate entry into the residential area.

The claimant therefore disputes any contention that the circumstances known to Miller at the time justified an immediate warrantless entry.

V. FOURTH AMENDMENT CLAIM

The claimant alleges that Miller's entry into the garage/residential area constituted an unreasonable governmental intrusion and an unreasonable search and/or seizure in violation of the Fourth Amendment.

The alleged entry occurred without:

- A search warrant;
- An arrest warrant;
- Consent;
- Apparent exigent circumstances;
- An apparent emergency; or
- Any other presently known exception to the warrant requirement.

The claimant therefore intends to assert, as supported by the evidence, a claim under 42 U.S.C. § 1983 based upon the alleged deprivation of rights secured by the Fourth Amendment.

The claimant further reserves the right to assert claims against Miller in his individual capacity and, where legally appropriate, in his official capacity.

VI. MILLER'S TRAINING AND EXPERIENCE

These are the complainant's own allegations, posted as filed.

The claimant has reason to believe that Interim Chief Timothy Miller has substantial prior law-enforcement experience, including reported employment with multiple law-enforcement agencies in the Wiregrass area.

To the extent supported by public records and other evidence, that experience may be relevant to determining Miller's knowledge of constitutional restrictions governing warrantless governmental entry into a residence and the distinction between public areas, private property, and areas associated with the home.

The claimant does not presently intend to prejudge the ultimate factual or legal determination concerning Miller's state of mind.

However, the claimant believes that Miller's training, experience, certifications, prior employment, and prior complaints or disciplinary history, to the extent lawfully discoverable, are relevant to the investigation of this incident and should be preserved.

VII. MUNICIPAL POLICY, TRAINING, AND SUPERVISION

The City of Taylor is placed on notice of potential municipal-liability claims under 42 U.S.C. § 1983 to the extent the evidence establishes that a City policy, custom, practice, decision, inadequate training, inadequate supervision, or deliberate indifference caused or contributed to the alleged constitutional violation.

The claimant recognizes that a municipality is not automatically liable under § 1983 merely because it employs an individual who allegedly violated the Constitution. The claimant's potential municipal-liability claims instead concern whether the City itself maintained or permitted policies, customs, practices, training deficiencies, hiring practices, supervision deficiencies, or other conditions that caused or contributed to the alleged constitutional deprivation.

Relevant subjects include, without limitation:

- Entry onto private property;
- Entry into residences and attached garages;
- The distinction between public areas, private property, and constitutionally protected areas associated with the home;
- Knock-and-talk encounters;
- Warrant requirements;
- Probable cause;
- Exigent circumstances;
- Consent;
- Code-enforcement investigations;

These are the complainant's own allegations, posted as filed.

- Administrative searches;
- Constitutional limitations applicable to police officers assisting with code enforcement; and
- Procedures for reviewing and correcting alleged constitutional violations.

The claimant requests that the City preserve all records relating to these subjects.

VIII. NOTICE OF SUBSEQUENT COMPLAINT AND CORRECTIVE ACTION

The City and Mayor Robert Lamb are further placed on notice that a complaint concerning Miller's conduct was previously submitted to the City.

The claimant alleges that, after receiving notice of the alleged unconstitutional entry, the City and responsible officials failed to conduct an adequate investigation and failed to take appropriate corrective action.

The claimant contends that the City's response, including the actions or inactions of responsible municipal officials after receiving notice of the complaint, may be relevant to whether the City had notice of a constitutional risk and whether additional investigation, supervision, training, policy changes, or corrective action was warranted.

The claimant specifically requests that all records concerning the prior complaint be preserved.

IX. MAYOR ROBERT LAMB

Mayor Robert Lamb is specifically placed on notice of the allegations described above.

The claimant understands that Mayor Lamb previously served as a code-enforcement officer for the City of Taylor. If accurate, that experience may be relevant to determining what knowledge and understanding City officials possessed concerning code-enforcement investigations, entry onto private property, and the constitutional limitations applicable to governmental entry into residences.

The claimant further alleges that Mayor Lamb was notified of the complaint concerning Miller's conduct and did not take adequate corrective action, as city official and Miller's direct supervisor.

The claimant reserves the right to pursue any claim against Mayor Lamb individually or in another legally appropriate capacity to the extent the evidence and applicable law support such a claim.

X. PRESERVATION OF EVIDENCE

These are the complainant's own allegations, posted as filed.

The City of Taylor, Mayor Lamb, Chief Miller, and all other persons or entities receiving this notice are hereby placed on formal notice to preserve all documents, electronically stored information, recordings, communications, and physical evidence potentially relating to the July 10, 2026 incident, the property at [redacted] the matters described in this letter.

This preservation demand includes, without limitation:

- Body-worn camera recordings;
- Dash-camera recordings;
- Vehicle GPS/location records;
- CAD records;
- Dispatch records;
- Radio transmissions;
- Telephone records relating to the incident;
- Text messages;
- Emails;
- Photographs;
- Videos;
- Police reports;
- Incident reports;
- Investigative notes;
- Code-enforcement records;
- Inspection records;
- Policies and procedures;
- General orders;
- Standard operating procedures;
- Training materials and records;
- Complaints concerning Miller;
- Internal-affairs records;
- Disciplinary records;
- Personnel records to the extent discoverable by law;
- Records concerning prior constitutional complaints;
- Records concerning prior warrantless entries or searches;
- Records concerning Miller's training;
- Records concerning Miller's supervision;
- Communications between Miller and Mayor Lamb;

These are the complainant's own allegations, posted as filed.

- Communications between Miller and other City officials;
- Communications concerning [redacted]
- Communications concerning [redacted]
- Communications concerning [redacted]
- Communications concerning the individual performing the painting;
- Photographs or video depicting the property;
- Any code-enforcement investigation concerning the property;
- Records identifying the alleged ordinance or code violation being investigated; and
- Records identifying or concerning the person who initiated or made any complaint that resulted in Miller's presence at the property.

No potentially relevant electronic or physical evidence should be deleted, altered, overwritten, destroyed, or otherwise disposed of.

The City should also take reasonable steps to suspend any routine deletion or overwriting procedures applicable to potentially relevant electronic evidence.

XI. REQUEST FOR INFORMATION AND RECORDS

The claimant requests that the City preserve and, where disclosure is authorized by law, provide records concerning the circumstances of this incident and Miller's employment and training.

The requested records include, to the extent legally obtainable:

- Miller's employment history;
- Applications and employment records;
- Training records;
- Law-enforcement certifications;
- Training concerning search and seizure;
- Training concerning warrantless entry;
- Training concerning curtilage and the home;
- Training concerning code enforcement and administrative searches;
- Policies addressing warrantless entry;
- Policies addressing code-enforcement investigations;
- Complaints concerning Miller;
- Investigations concerning Miller;
- Sustained complaints;
- Disciplinary records;

These are the complainant's own allegations, posted as filed.

- Internal-affairs records;
- Performance evaluations;
- Records concerning prior allegations of unconstitutional conduct;
- Records concerning prior warrantless entries or searches; and
- Records concerning Miller's supervision by City officials.

Nothing in this request is intended to demand disclosure of records that are legally exempt from disclosure outside formal discovery or other lawful process.

The claimant reserves the right to seek relevant records through Alabama public-records procedures, discovery, subpoena, deposition, or other lawful process.

XII. CLAIMS AND DAMAGES

As a result of the conduct described above, the claimant reserves the right to seek all damages and other remedies available under federal and Alabama law, to the extent legally recoverable.

Potential relief may include, as applicable:

- Compensatory damages;
- Damages for violation of constitutional rights;
- Damages for invasion of privacy, if legally supported;
- Emotional-distress damages, if legally recoverable;
- Property-related damages, if established;
- Attorney's fees where authorized by law;
- Litigation costs;
- Declaratory relief;
- Injunctive or other equitable relief where legally available; and
- Any other relief authorized by law.

Punitive damages may be sought against individual defendants if the evidence establishes the applicable legal prerequisites. The claimant recognizes that different limitations may apply to punitive damages against a municipality.

XIII. REQUEST FOR INVESTIGATION AND RESPONSE

The City is requested to conduct a prompt, impartial, and documented investigation of the circumstances described in this letter.

The investigation should determine, at a minimum:

- Why Miller went to [redacted]

These are the complainant's own allegations, posted as filed.

- Who requested or initiated Miller's involvement;
- What information Miller possessed before arriving;
- The source of that information;
- Why Miller entered the residential/garage area;
- Whether Miller believed a crime or ordinance violation was occurring;
- What specific law, ordinance, regulation, or code provision Miller believed was implicated;
- Whether Miller believed he had probable cause;
- Whether Miller believed exigent circumstances existed;
- Whether Miller possessed or relied upon a warrant;
- Whether Miller obtained consent;
- What training Miller received concerning warrantless entry;
- Whether Miller's conduct complied with City policies;
- Whether Miller's conduct complied with constitutional requirements;
- Whether the City has received prior complaints concerning similar conduct;
- Whether corrective or disciplinary action is warranted; and
- What action, if any, Mayor Lamb or other responsible officials took after receiving the prior complaint.

The claimant further requests that the City identify the person responsible for investigating this matter and provide a written response.

XIV. INTENT TO FILE CIVIL ACTION

Unless this matter is satisfactorily investigated and resolved, the claimant intends to pursue litigation against the appropriate parties.

Potential defendants may include, without limitation:

- The City of Taylor, Alabama;
- Robert Lamb, individually and/or in an officially appropriate capacity; and
- Timothy Miller, individually and/or in an officially appropriate capacity.

Potential claims may include claims under 42 U.S.C. § 1983 arising from the alleged Fourth Amendment violation, municipal-liability claims based upon a policy, custom, inadequate training, inadequate supervision, or deliberate indifference where supported by the evidence, and any other federal or state-law claims supported by the facts and applicable law.

The specific causes of action, parties, and theories asserted in any subsequent lawsuit will depend upon the evidence obtained, applicable law, and the results of any investigation.

These are the complainant's own allegations, posted as filed.

XV. RESERVATION OF RIGHTS

This correspondence is not intended to constitute an exhaustive statement of all facts, claims, damages, or legal theories.

The claimant expressly reserves the right to amend, supplement, or expand the allegations and claims described herein as supported by any additional evidence.

The claimant further reserves all rights concerning any additional constitutional, federal, state, statutory, or common-law claims arising from the facts described above or from facts subsequently discovered.

Please direct all future communications concerning this matter in writing.

Please acknowledge receipt of this Notice of Claim and identify the individual responsible for handling and investigating this matter.

Sincerely,

[redacted]
